So, who is Omni-tuff Group?

Omni-tuff Group is an Australian-owned company with a global supply chain. The company specialises in long-term protection and storage for critical spares and equipment. We are passionate about preventing wastage of resources and time. Hence, we continually innovate new solutions to help our customers achieve safer, more effective methods of Retaining, Restraining and Maintaining their assets, whether it be in the warehouse, or out in the field.

RETAIN

Omni-tuff Group is passionate about working with our customers to develop and select methods to Retain goods and equipment, whether it be spares, dangerous goods, fast moving stock lines or components that are stored in containers and transported offshore.

RESTRAIN

Need that peace of mind that your strapping will do the job you are expecting it to do? Wondering how you can increase efficiency within your warehouse? Or perhaps you are under pressure from your safety department? Omni-tuff specialises in rated strapping systems to ensure that our customers achieve optimum restraint of goods and equipment.

MAINTAIN

We recognise that in today's economy, protection of assets is even more pertinent to our customers than ever. Our Maintain range has been developed to achieve prevention of corrosion for metal components, protection from UV damage to equipment stored in external conditions, and the implementation of structured moisture control systems in electrical and mechanical networks.

Passionate about Preventing Wastage

What do our customers say about us?

RETAIN

"We used to source this from a different vendor however I am intrigued that our site contacts said that you have cages that are better suited to our requirements and a little more hearty. I'm glad to be able to log some savings in the purchase as well."

– Procurement & Energy

RESTRAIN

"We also thank you again for the continued communication and feedback throughout the entire process, from product development right through to the straps landing in our Warehouses. The Omni-tuff CamLock tidy straps will greatly improve the safe storage of goods in our pallet racking."

– Multinational Service Provider

MAINTAIN

"We exclusively use OMNI-TUFF for all transformer breather systems and consumables and would happily recommend the brand to others."

– Leading Provider of Utilities

"We're using OMNI-TUFF Seal'n'Peel and the performance is perfect. Seal'n'Peel is protecting the flange face very well [from corrosion] and it's very easy to use."

– Global Construction Company
